

DATA SHEET

Super Type 411

Product Description:

One of our most popular products, this 0.4mm thick material has a strong PVC carrier which reduces the risk of axis problems. Its synthetic adhesive is compatible with many coating types and removes cleanly every time from both organic and mineral lenses.

Synthetic rubber provides good adhesion on coated lenses.

Physical Properties:

Adhesive (Cup Side):	Synthetic Rubber
Adhesive (Lens side):	Synthetic Rubber
Carrier:	250 micron Vinyl
Total thickness:	0.38 mm
Top Liner:	Tan paper
Bottom Liner:	Siliconized PE
Shelf Life:	12 months from dispatch when stored in original. Cartons at 21°C and under 50% relative humidity.

The data and details in this sheet were correct and up-to-date at the time of printing and are intended to provide information on our products and their possible applications.

This sheet is not a specification and does not assure specific product characteristics or make reference to the suitability of the products for a definite application. Because SOS-Optics cannot anticipate or control every application, we strongly recommend testing of this product under individual application conditions. In accordance with our policy of continuous improvement specification may vary.
